PRIVATE EXPERIENCE / ENGLISH

Cuatro Vientos

An acclimatization hike through the Domeyko landscape, featuring ascents and descents that require physical effort. The focus is on the expansive terrain and learning to maintain a pace suitable for high-altitude conditions.

Your itinerary

Approach.

The vehicle arrives at the start of the planned route. We check our gear and outline the schedule for travel, hiking, and breaks.

Ascent

The trail gains elevation gradually. The guide will schedule stops for hydration and to assess how the group is faring-this is not a race or a test of speed.

Viewpoint and trail-side meal

From this high vantage point, you can take in the landscape of the mountain ranges and the surroundings of the Rainbow Valley (Valle Arcoíris). Being nearby does not imply that park admission is included; such a visit only takes place if it is specified in your booking.

Descent and return

We return via the planned route back to San Pedro. The hiking distance should not be confused with the travel distance (by vehicle).

DURATION

Approximately 4 hours of walking

DISTANCE / ROUTE

Approx. 6 km; ±560 m

EFFORT

Trekking with elevation gain

MEALS

Includes a trail snack, a sandwich, and drinks, as per the itinerary.

TRANSPORT

Hotel pickup and drop-off in San Pedro (depending on location). Private transfers with stops coordinated by the guide.

PREPARATION

Acclimatization tailored to the group; trekking poles are recommended; bring water and warm clothing.
