PRIVATE EXPERIENCE / ENGLISH

Quimal

Mount Quimal offers a mountain excursion within the Domeyko Range. The approach and ascent are tailored to the group's experience level, with the safe return of the group prioritized over reaching the summit.

Your itinerary

Transfer and assessment

We depart for the agreed-upon starting point. Before setting off on foot, the guide checks conditions, acclimatization, and equipment; the travel time should not be confused with the duration of the ascent.

Ascent via the chosen route

The route gains elevation across mountain terrain. We take short breaks to hydrate and maintain a steady level of exertion, ensuring the initial pace does not compromise the descent.

High point and panoramic view

If conditions and the group allow, we reach the planned objective. The views help contextualize the Domeyko Mountain Range in relation to the salt flat and the Andes; reaching the summit is not guaranteed.

Descent and return

We return to the vehicle via the agreed-upon route. A set return time, weather conditions, or the physical state of the participants may necessitate an early turnaround.

DURATION

Mountain excursion

DISTANCE / ROUTE

Reference: approximately 7 km on foot

EFFORT

Demanding; requires preparation

MEALS

Trail snacks and drinks; breakfast or other meals are specified in the proposal.

TRANSPORT

Hotel pickup and drop-off in San Pedro (depending on location). Private transfers with stops coordinated by the guide.

PREPARATION

Acclimatization, mountain footwear, thermal layers, windbreaker, sunglasses, and sun protection. Specific equipment depends on the route.
