PRIVATE EXPERIENCE / ENGLISH

Sandboarding

An introductory and practice experience on the dunes of the Valley of Mars (Valle de Marte). The activity alternates short descents with climbs on foot and breaks; the sand, wind, and temperature all influence the level of physical exertion.

Your itinerary

Arrival at the dunes.

The guide will introduce the designated area and the rules for using the site. We will check the equipment and select a suitable slope to begin.

Learning the technique.

We will practice posture, balance, and control before increasing the length of the descents. The goal is to build confidence gradually, without pressure to attempt slopes that do not feel comfortable.

Descents and climbs.

We will repeat the descents at the group's pace. Each descent requires walking back up; breaks for hydration are part of the activity, not unlimited extra downtime.

Return

We will collect the equipment and leave the dunes free of any waste. Transportation and the conclusion of the service are as specified in your booking proposal; a barbecue (asado) is not automatically included in this experience.

DURATION

Session as per the program.

DISTANCE / ROUTE

Short climbs on foot; distance not fixed.

EFFORT

Physical exertion on sand.

MEALS

Drinks and snacks, as per your booking. A barbecue (asado) is included only if specifically requested and arranged.

TRANSPORT

Hotel pickup and drop-off in San Pedro (depending on location). Private transfers with stops coordinated by the guide.

PREPARATION

Closed-toe footwear, sunglasses, water, and sun protection are required. Please confirm details regarding the board, guide, transportation, and access conditions.
